DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-19, 21, 23 and 25-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Banks 5,445,288.

Banks shows a fluid dispensing system comprising a pump 36, plunger 68, outlet and valve 80.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12-13, 14, 16-17, 20 and 22 rejected under 35 U.S.C. 103(a) as being unpatentable over Banks 5,445,288 in view of Grothoff 4,775,079.

Banks lacks a shroud and the outlet valve spherical. Grothoff shows a shroud 82 to allow dispensing in the upright or inverted position and spherical outlet valve 27. It would have been obvious to one of ordinary skill in the art to have modified the Banks dispenser with a shroud and outlet valve spherical to dispense in the upright or inverted position.

Art Unit: 3754

Claims 15 and 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Banks 5,445,288 in view of Grothoff 4,775,079 as applied to claims 12 and 18 above in further view of Gillingham et al 5,738,250.

Banks lacks a shipping seal. Gillingham shows a shipping seal 33. It would have been obvious to one of ordinary skill in the art to have modified the Banks dispenser with a shipping seal as taught by Gillingham to prevent inadvertent dispensing.

Allowable Subject Matter

Claims 1-9 and 11 allowed.
